

The Push Stick

Message From the Prez

by Paul Wilson

After 3 months of no club meetings or activities, it seems as though the time to get back together is now sooner rather than later. At this point the club meeting scheduled for June 11th is looking very good. Although the idea of getting back together is promising, there will be some changes to ensure everyone's safety, by the wearing of masks and social distancing. To do our part in keeping everyone safe, we will be eliminating all tables with the exception of the raffle and show & tell.

Refreshments, will NOT be available for a while. So if you would like to have something to drink, it will be up to you. Also please bring your own pens for show & tell sign up or any other writing you may want to do. Meeting format: usually the meeting last about 90 minutes, that time maybe the same or shorter depending on the meeting agenda. Members who would like to purchase raffle tickets, we ask that you stand across the table to maintain distancing.

I want to thank you for all of your help to make sure that we can get together safely. We will be monitoring the situation during the next several months and we will keep you updated on any changes that may be necessary. I hope to see many of you soon, in a safe and fun environment. Take care and be safe.

Paul W

May Meeting Cancelled

Because of Covid-19 isolation, but a June meeting is looking good.

Toy Car Wheels

If you need wheels for cars you have made for WOW's charity, and would like to put them on yourself, contact Dick Toney 562-328-6102. He will get them to you. When done, we can store them at Hathaway Ranch.

"I don't make mistakes. I make the nicest firewood you ever did see."

Member Creations

Last month I asked for members to send me pictures of their latest creations. They did, so I put them in the newsletter. It was quite popular, so we are doing it again. Our members like pretty pictures. **Thank you to all who participated.** Hopefully it inspires others to go out into the shop and make something.

Established 1993

Louis Lopez made this desk and then got requests from his family for two more. They are made from stained red oak with a wipe on poly satin finish. Bow tie dutchman inserts in top.

Lindsey Fisher made a garden toolbox. He said it was nice to make sawdust in the garage.

Don Prince says this “These are called Scroll Saw Portraits. The lady on the right is my wife Kathy and the lady on the left is one of our wonderful caregivers, Rachel.”

Randy Bragg turned these pens. Nice variety Randy.

Jim Sparling made a segmented bowl from FOG (found on ground) wood. He said it was brown and light brown wood. Looks nice.

Club Calendar

May Meeting- None
 Steering Committee- To be announced
 June Meeting To be announced
 Steering Committee Meeting To be announced
 Meet 2nd Thursday of the month at Adventure Park
 10130 Gunn Avenue Whittier , CA 90605

Rubin Johnson made boxes in different styles. Some from book plans. The hinged boxes are for stationery. The cabinet in the back is cherry. He was making it for a class at Cerritos College. I put his description on the club's Facebook page. www.facebook.com/woodworkersofwhittier

Alan Webster made puzzles. One of a dragon the other is of a rider. I took the picture with the template on so you could see the cuts. The wood is dark so it is hard to see. Will bring to a meeting.

Michael Perovich made a Faro Marker Rack. Remember those hand planes that he bought to a meeting months ago?. He got them at a thrift store in rough shape. Well he fixed them up and they look great!

Al Winberg made these templates so he can cut out patterns in cars. May make them more appealing for girls. He said "My Wife and Daughters have been after me to make something for Girls that could be included in the Club Car Project."

Ramiro Garate made a wrist watch display case. For all his Rolexes and Patek Philippe. Well done.
