

# The Push Stick

## Woodworkers of Whittier Bulletin

Due to no meetings until next year, there will be little news to report in the Pushstick. In addition **Alan Webster, the editor of the Pushstick, me, is in the process of selling my house and moving to Kingman, Arizona.** More news about this later in an email to all. So it is a hectic time for me. There will not be a Pushstick in October. Everything is in flux until January. I will provide newsletters as time permits, but plan on one in November and December.

### Message From the Prez

*by Paul Wilson*

Over the last three years that I have written this message, it has been for the most part very easy. This year it has been very different, as we all know, with the Covid 19 Pandemic causing us to change our behavior, habits and trying to cope with a new normal. As many of you know, club activities have been almost nonexistent, with some exceptions. I would like to bring you up to date on some of the clubs activities during the last few months.

First, I would like to thank the following members who have participated in the club's toy project at Hathaway Ranch. For about 2 months now we have been back to work. With all of the hard work, we will be able to distribute toys this year. So my thanks to Arie K., Ron H., Skip P., Dick T., Ray W., Joe D., Julie M. and Alan W. and to Jim S. who contacted each of the charities for this year's toy project. Thank you to each of you for your hard work.

Also a big thanks to all who have made cars this year. This Christmas W.O.W. will once again will bring joy the lives of hundreds of children in our area. Second, I would like to thank Dick T., Alan W. and Louis L. for allowing the club to have our steering committee meetings at their homes. Having that opportunity has allowed us to gather and discuss club business and make decisions for the rest of this year. My thanks to each of you.

Finally most of you may have heard by now that Alan Webster will be leaving us as he moves to Kingman, Az. Although it will be hard to see him go, we send our thanks with him for all of his hard work over the years he has been a part of the club. Alan has served as Secretary and has been very active in club activities. He is best known for working on the clubs monthly newsletter and maintaining the clubs social media (Facebook) and the club website. On behalf of all of us at W.O.W. our thanks to you Alan for your dedication and hard work and friendship. We wish you the best in your future endeavors and hope you will always know that you will always be welcome to return for a visit. Although he may not be around, Alan has agreed to continue helping the club with the newsletter as long as he can and the club is very lucky that he is willing to help out. Good Luck Alan and thanks for being a great Friend.

In closing a reminder all club meeting for 2020 have been cancelled including this year's Christmas Party. So for now please stay safe and stay healthy and I hope you will stay with us as we make a comeback in 2021.

Established 1993

Using wood given to me by Alan Webster, I built a frame and panel oak door to replace a 24" square attic access door.

Rubin Johnson

**Rubin Johnson** Built a door for outdoor attic access. Did a frame and panel with stiles wide enough to contain the lock and depth to match the 1 3/4 inch existing. Boy is it heavy and solid. Used the router and chisel for mortises for hinges and bolt plate. Finished the mobile miter station that was almost done last time. This includes an extension wing that can go on either side. T-track lets me set stops.

**Don Prince** made these two scroll saw creations. A beaver the original woodworker and a flamingo. Don said Dick Tony helped him with the backer boards.

**Paul Wilson** made a pizza peel using oak and black walnut
